QuickBoard - Stay Informed. Stay Ahead

SRS (in brief *)

1. Objective:

QuickBoard is a centralized digital notice board system designed for colleges to streamline communication between faculty and students. It enables faculty to publish academic and administrative notices, while students can easily view, search, and track relevant updates based on department and year.

2. Users and Roles:

Admin: Manages all users, categories, and system settings.

Faculty: Posts, updates, and manages notices.

Students: Views notices, filters by interest, and marks them as read.

3. Key Features (Functional Requirements):

User registration and role-based login

CRUD operations for notices

Department/year-based targeting of notices

File upload support (PDFs, images)

Read/unread status tracking

Search and filtering by department, category, and date

if time is available notifications (email/push)

Names of DBMS tables identified (approximately) *

Users – UserID, Name, Email, PasswordHash, Role (Admin/Faculty/Student), Course, Year

Notices – NoticeID, Title, Content, Category, CreatedBy (UserID), TargetCourse, TargetYear, CreatedAt, ExpiryDate, AttachmentPath

Courses – CourseID, CourseName

Categories – CategoryID, CategoryName

ReadStatus – StatusID, UserID, NoticeID, IsRead, ReadAt
